### 18.06 Problem Set 10

Due Thursday, 29 April 2010 at 4 pm in the undergrad math office. Please note that the problems from the textbook are out of the 4th edition: make sure to check that you are doing the correct problems. For MATLAB problems, please include a printout of your code with your problem set. You can type diary ("filename") at the beginning of your session to save a transcript, and diary off when you are done.

Non-challenge problems are worth 4 points, while challenge problems are worth 12.

1. Do problems $12,14,20,22,23$, and 24 from section 6.6.
2. Do problems 4, 11, and 17 from section 6.7.
3. Do problems $4,5,12$, and 13 from section 8.5 (last two count as challenge problems).
