The meeting will begin the evening of July 26, 2000 with an opening lecture by one of our distinguished speakers and close with a lecture by Dr. H. G. Khorana (MIT).

In addition to the lectures, poster sessions will be held on structure, chemistry and synthesis of nucleic acids, gene expression, and structure-function relationship of nucleic acids and proteins, membrane proteins and signal transduction. Proceedings of the meeting will be assembled in the form of a collection of abstracts.

**Applicants wishing to present a poster should send an abstract of not more than one page to:
HGK@trna.chem.yale.edu. Abstracts must be received by May 20, 2000.**

The conference will be held at Brandeis University in Boston (Waltham), Massachusetts, USA. Registration forms can be obtained from: Ms. Pauline LeBlanc, Brandeis University, 781-736-2301, leblanc@brandeis.edu.

Because of limited facilities, all applications may not be accepted.
