

GHGT-9

9th International Conference on Greenhouse Gas Control Technologies

16 - 20 November 2008, Washington, DC

The Organisers of 9th Greenhouse Gas Control Technology Conference would like to extend their thanks to the following people who have reviewed abstracts for the conference during 2008. Their expertise and assistance has greatly added to the quality of the conference programme. We apologise for any names that may have been inadvertently omitted.

Name	Affiliation	Country
Toby Aiken	IEA Greenhouse Gas R&D Programme	United Kingdom
Idar Akervoll	SINTEF Petroleum Research	Norway
Keigo Akimoto	Research Institute of Innovative Technology for the Earth	Japan
Rodney Allam	Imperial College London	United Kingdom
Rob Arts	TNO	Netherlands
Koorosh Asghari	Faculty of Engineering-University of Regina	Canada
Stefan Bachu	Energy Resources Conservation Board	Canada
Nico Bauer	Potsdam Institute for Climate Impact Research	Germany
Brendan Beck	IEA Greenhouse Gas R&D Programme	United Kingdom
Sally Benson	Stanford University	United States
Didier Bonijoly	BRGM	France
Guenter W. Borm	Institute of Soil and Rock Mechanics	Germany
Peter George Brewer	Monterey Bay Aquarium Research Institution	United States
Grant Bromhal	US DOE/NETL	United States
Paul Stanilas Broutin	IFP	France
Steven Bryant	The University of Texas at Austin	United States
Frede Cappelen	StatoilHydro	Norway
J. William Carey	Los Alamos National Laboratory	United States
Andy Chadwick	British Geological Survey	United Kingdom
Richard Chalaturnyk	University of Alberta	Canada
Paolo Chiesa	Politecnico di Milano	Italy
Marcia Coueslan	Schlumberger Carbon Services	Canada

GHGT-9

9th International Conference on Greenhouse Gas Control Technologies

16 - 20 November 2008, Washington, DC

Name	Affiliation	Country
Isabelle Czernichowski-Lauriol	BRGM	France
Dancker Daamen	Leiden University	Netherlands
John Davison	IEA Greenhouse Gas R&D Programme	United Kingdom
David de Jager	Ecofys	Netherlands
Gelein De Koeijer	StatoilHydro ASA	Norway
Jan Wilco Dijkstra	ECN, Energy research Centre of the Netherlands	Netherlands
Tim Dixon	IEA Greenhouse Gas R&D Programme	United Kingdom
Kevin Dodds	BP AlternativEnergy	Australia
Michiel Duser	Geological Survey of Belgium	Belgium
Ola Eiken	StatoilHydro	Norway
Jonathan Ennis-King	CSIRO Petroleum, CO2CRC	Australia
Sara Eriksson	Vattenfall Research and Development	Sweden
Paul Feron	CSIRO	Australia
Randall Field	MIT Energy Initiative	United States
Scott Frailey	Illinois State Geological Survey	United States
Julio Friedmann	Lawrence Livermore National Laboratory	United States
Yuichi Fujioka	Research Institute of Innovative Technology for the Earth	Japan
John Gale	IEA Greenhouse Gas R&D Programme	United Kingdom
Jonathan Gibbins	Imperial College	United Kingdom
Catherine Gibson-Poole	BP Alternative Energy	United Kingdom
Michael Rennie Haines	IEA Greenhouse Gas R&D Programme	United Kingdom
Mirjam Harmelink	Ecofys	Netherlands
Peter M. Haugan	University of Bergen	Norway
Chris Hawkes	University of Saskatchewan	Canada

GHGT-9

9th International Conference on Greenhouse Gas Control Technologies

16 - 20 November 2008, Washington, DC

Name	Affiliation	Country
Chris Hendriks	Ecofys	Netherlands
Gardiner Hill	BP	United Kingdom
Karl Anders Hoff	SINTEF Materials and Chemistry	Norway
Susan Hovorka	Bureau of Economic Geology	United States
Scott Imbus	Chevron Energy Technology Co.	United States
Kenshi Itaoka	Mizuho Information & Research Institute	Japan
Daniel Jansen	Energy research Centre of the Netherlands (ECN)	Netherlands
Francois Kalaydjian	IFP	France
Alfons Kather	Hamburg University of Technology (TUHH)	Germany
Jun Kita	Marine Ecology Research Institute	Japan
Steven Kleespie	Hydrogen Energy International Ltd.	United Kingdom
Anna Korre	Imperial College London	United Kingdom
Atsushi Kurosawa	The Institute of Applied Energy	Japan
Hanne Marie Kvamsdal	SINTEF Materials and Chemistry	Norway
Philippe Lacour-Gayet	Schlumberger	United Kingdom
Pierre Le Thiez	GEOGREEN / IFP	France
Xiaochun Li	Chinese Academy of Sciences	China
Erik Lindeberg	SINTEF Petroleum Research	Norway
Anders Lyngfelt	Chalmers University of Technology	Sweden
Toshifumi Matsuoka	Kyoto University	Japan
Philip Maul	Quintessa Ltd	United Kingdom
Marco Mazzotti	ETH Zurich	Switzerland
Kenneth Möllersten	Swedish Energy Agency	Sweden
Lynn Orr	Stanford University	United States
John Pershing	World Resources Institute	United States

GHGT-9

9th International Conference on Greenhouse Gas Control Technologies

16 - 20 November 2008, Washington, DC

Name	Affiliation	Country
William L Pickles	University of California Santa Cruz	United States
Kris Piessens	Royal Belgian Institute of Natural Sciences	Belgium
Gary Rochelle	University of Texas	United States
Ed Rubin	Carnegie Mellon University	United States
Michael Stenhouse	Monitor Scientific LLC	United States
Stanley Santos	IEA Greenhouse Gas R&D Programme	United Kingdom
Donald Seeburger	Chevron Energy Technology Company	United States
Sandeep Sharma	CO2CRC /Schlumberger	Australia
Koen Smekens	ECN, Unit Policy Studies	Netherlands
Bob Stobbs	Canadian Clean Power Coalition	Canada
Hallvard Fjøsne Svendsen	Norwegian University of Science and Technology	Norway
Ohsumi Takashi	Research Institute of Innovative Technology for the Earth	Japan
Paitoon Tontowachwuthikul	University of Regina	Canada
Tore Torp	StatoilHydro	Norway
Bert van der Meer	TNO Built Environment and Geosciences	Netherlands
Amornvadee Veawab	University of Regina	Canada
Terry Wall	University of Newcastle	Australia
Krzysztof Warmuzinski	Polish Academy of Sciences	Poland
Donald John White	Geological Survey of Canada	Canada
Vince White	Air Products	United Kingdom
Neil Wildgust	IEA Greenhouse Gas R&D Programme	United Kingdom
Malcolm Alan Wilson	University of Regina	Canada
Hongqi Yuan	Alberta Research Council	Canada
Ron Zevenhoven	Abo Akademi University	Finland
