

MIT-France 2008 Seed Fund Grantees

Title	School	Department	Faculty
Ground Truthing: Exploring the Social Implications of Real-Time Mapping Endeavors	Architecture and Planning	Urban Studies	Carlo Ratti
Exploration of the potential of ionic liquid ion sources for nanofabrication	Engineering	Aeronautics & Astronautics	Paulo Lozano
Supercritical Microfluidics for green chemistry and advanced hierarchically materials	Engineering	Chemical Engineering	Klavs F. Jensen
Joint experimental/theoretical investigation of immiscible element nanocomposites	Engineering	Materials Science & Engineering	Mickael Demkowicz
Biologically inspired Flapping Foils For Flow Energy Recovery	Engineering	Mechanical Engineering	Michael Triantafyllou Franz Hover
Neuronal recruitment in adult brain circuits	Science	Brain & Cognitive Sciences	Carlos Lois
Elasticity and Interfaces	Science	Mathematics	Pedro Reis Sunghwan (Sunny) Jung
Tracking the Rule of Law: A Ten Nation Study of Legal Consciousness	SHASS	Anthropology	Susan Silbey
Self-locating beliefs: new empirical and conceptual approaches	SHASS	Linguistics & Philosophy	Alex Byrne Robert Stalnaker
